

ENVIRONMENT POLITICS

"La Pineta" campingsite is situated in Viareggio on the wonderful Versilia Coast and is only 2 Kilometers far from the city centre ; it borders with "Migliarino-S.Rossore-Massaciuccoli" natural park.

With this Environment Politics "La Pineta" Camping exercises its own engagement toward (s) Environment :

- **Prevention** : preventing pollution, avoiding or reducing employment of dangerous substances ; to define the planification of necessary activities for the elimination of these and where it's not possible reducing pollution.
- **The observance of the Laws** : respecting the legislative implementations of the regulation in force.
- **The planning** : individualizing the corporate objectives of improvement of all the aspects related to the health, the safety of the people and the Environment Quality.
- **The control** : periodical examining of our own activities with the environmental impact.
- **The financial resources** : it defines a programme for specific goals for gradual improvement with appropriate and applicable technologies.
- **Communication** : clearness and sensitization addressed to operators, guests and local communities about the environment to get collaboration and confidence.

"La Pineta" Camping undertakes to provide resources, formation and support to achieve the prearranged aims.

All employees and suppliers must work together for a correct functioning of environmental Management System.

"La Pineta " Camping concentrates its attention on :

- **Improvement for a system managing residual waste.**
- **Reducing the consumption of natural resources.**

"La Pineta" Camping also undertakes to consider in advance, if it's possible the environmental effects derived from new activities and to take all measures to prevent waste of energy or material.
